DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a combination of a pre-rinse assembly and a shipping package, classified in class 206, subclass 321.
- II. Claims 5-7, drawn to a combination of a faucet with fittings and a shipping package, classified in class 206, subclass 321.
- III. Claims 8 and 9, drawn to a method of preparing a pre-rinse assembly for shipping, classified in class 53, subclass n/a.
- IV. Claim 10, drawn to a method of preparing a faucet assembly for shipping, classified in class 53, subclass n/a.
- V. Claims 11 and 12, drawn to a faucet, classified in class 251, subclass n/a.
- VI. Claim 13, drawn to a riser support, classified in class 248, subclass n/a.

Due to the large number of distinct inventions claimed and the obvious distinctness between each of the groups (i.e. there are no independent claims that could possibly not be considered to be patentably distinct over each of the other independent claims due to the greatly divergent subject matter separating each of the independent claims) a separate breakdown of the distinctness of each group over each and every other group is not provided herein. Should the

Applicant the Examiner's assertion of distinctness of any particular group over any other particular group, a showing of distinctness will be provided.

Because these inventions are distinct for the reasons given above and the search required for each Group is not required for other Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
